Florida Jurisprudence
Melanie A. Crandall, OD, MBA, FAAO
Associate Professor, NSUCO

I speak from experience.
- Served on the MO state board of Examiners for two years
- Resigned to take a seat on SCO Board of Trustees, By MO state law serving on both would be a conflict of interest.
- I have held an active FL license since 1977

State Boards
- Self Regulation is the hallmark of a profession.
- State Boards operate as protection for the consumer.
- State Board inquiries start as a written complaint from a patient (or interested party).
- Once the Board begins an investigation it can look at all aspects of your practice.

Composition of Board
- Appointed by the Governor
- 5 OD’s and 2 lay persons
- Administratively: Executive Director, Board Council, and Prosecuting Council

Current OD Board Members
- Timothy Underhill, OD Chair, Ft Myers
- Terrance Neberhaus, OD, Vice Chair, Merritt Island
- Christopher King, OD, Engelwood
- Tamara Maule, OD, Lake Worth
- Stuart Kaplan, OD, Cape Coral

Practitioner Regulation
Mission: Promote, protect, and improve the health of the people of Florida
Vision: A healthier Future for the people of Florida.
Focus: To be the nation’s leader in quality health care regulation
Values: Integrity, Commitment, Respect, Excellence, Accountability, Teamwork and Empowerment
**State Statutes**

- 463 “Optometry Practice Act”
- 456 “Empowers Board to Act”
- 64B13-3 “Standards of Practice”

**New Law**

- amending s. 463.0055, F.S.: requiring a certified optometrist to complete a course and examination on general and ocular pharmaceutical agents before administering or prescribing oral ocular pharmaceutical agents; requiring the Florida Medical Association and the Florida Optometric Association to jointly develop and administer the course and examination; revising provisions relating to the development of a formulary of pharmaceutical agents;

**Quick Summary amended 463**

- Does away with Formulary Committee
- Everywhere law used term “topical” it has been changed to “Ophthalmic”.
- Need to complete online course
- Need to get DEA # if you want to Rx pain meds class III and IV only

**Pain Meds**

- b) A certified optometrist licensed under chapter 463 who prescribes any controlled substance listed in Schedule III or Schedule IV as defined in s. 893.03, for the treatment of chronic nonmalignant pain, must comply with the requirements of this section and applicable board rules.

**463.003 Board of Optometry**

(1) There is created within the department the Board of Optometry, composed of seven members appointed by the Governor and confirmed by the Senate.
(2) Five members of the board must be licensed practitioners actively practicing in this state. The remaining two members must be citizens of the state who are not, and have never been, licensed practitioners and who are in no way connected with the practice of optometry or with any vision-oriented profession or business. At least one member of the board must be 60 years of age or older.
(3) As the terms of the members expire, the Governor shall appoint successors for terms of 4 years, and such members shall serve until their successors are appointed.
(4) All applicable provisions of chapter 456 relating to activities of regulatory boards shall apply.

**State Statues**

Many of my slides are taken right from the law. I apologize for small font …but wanted to give you information direct from state laws. www.myFlorida.com Can find complete statues. All meeting minutes available.
Oral Medications
- Amoxicillin
- Azithromycin
- Erthromycin
- Dicloxacillin
- Doxycycline/Tetracyclin
- Keflex
- Minocycline

- Acyclovir
- Famciclovir
- Valacyclovir
- Acetazolamide
- Methazolamide

Pain Meds
- Tramadol hydrochloride
- Acetaminophen 300mg with No. 3 Codeine phosphate 30mg

Optometrist may not prescribe more than 72 hours of pain meds without consultation with DO or MD

Reporting Adverse Events*
- Any condition that requires patient’s transfer to Hospital
- Any condition that requires care and tx from physician, other than referral consultation
- Permanent physical injury to patient
- Partial or complete permanent loss of sight by patient
- Death of Patient
*effective Jan 1 2014

Adverse Incident Reports
- Sent by certified mail
- Postmarked within 15 days after the adverse incident occurs.

Co-Management and Post Op care
- Co management terms governed by transfer of care letter that must state:
  - It is not medically necessary for operating Oph. To deliver post-op care
  - It is clinically appropriate for OD to provide the postoperative care

Prior to beginning postoperative care
- Patient has right to have all care from surgeon
- Patient needs to be informed of fees
- Patient must be provided with breakdown of fees
Prohibition Against Performing Surgical Procedures

Optometrists are specifically permitted to:
- Remove an eyelash by epilation
- Probe an uninflamed tear duct of a patient 18 or older
- Block a puncta by plug
- Superficially scrape the eye in order to remove damaged epithelial tissue, superficial FB or to culture

Clinical Laboratories

- Optometrists can order clinical laboratory testing

Boxing Exhibitions

- The law also amended 463.0153, expanding the scope of practice to allow a certified optometrist to perform any eye examination, including a dilated examination as required or authorized by law for boxing exhibitions.

Sample of 456

456.671 Power to administer oaths, take depositions, and issue subpoenas—For the purpose of any investigation or proceeding conducted by the department, the department shall have the power to administer oaths, take depositions, make inspections when authorized by statute, issue subpoenas which shall be supported by affidavit, serve subpoenas and other process, and compel the attendance of witnesses and the production of books, papers, documents, and other evidence. The department shall exercise this power on its own initiative or whenever requested by a board or the probable cause panel of any board. Challenges to, and enforcement of, the subpoenas and orders shall be handled as provided in §120.569. History.—s. 65, ch. 97-261; s. 89, ch. 2000-160.

456

In determining what action is appropriate, the board, or department when there is no board, must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the practitioner. All costs associated with compliance with orders issued under this subsection are the obligation of the practitioner.

*Emphasis by Dr. Crandall

It’s the Money

“compensate the patient”

If there are no financial damages there might not be a case.

Give patients their money back.
3(a) Notwithstanding subsection (2), if the ground for disciplinary action is the first-time failure of the licensee to satisfy continuing education requirements established by the board, or by the department if there is no board, the board or department, as applicable, shall issue a citation in accordance with s. 456.077 and assess a fine, as determined by the board or department by rule. In addition, for each hour of continuing education not completed or completed late, the board or department, as applicable, may require the licensee to take 1 additional hour of continuing education for each hour not completed or completed late.

Renewals after May 2013
- The Department of Health Division of Medical Quality Assurance (MQA) will review CE electronically at the time of renewal
- Practitioners can report and view courses in electronic system free of charge. (2015 biennium)
- CE broker does offer a paid service to help "manage CE"

New Questions on Your Renewal
- 1. Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under Chapter 409, F.S., (relating to social and economic assistance), Chapter 817, F.S., (relating to fraudulent practices), Chapter 893, F.S., (relating to drug abuse prevention and control) or a similar felony offense(s) in another state or jurisdiction
- 2. Has been convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, a felony under 21 U.S.C. ss. 801-970 (relating to controlled substances) or 42 U.S.C. ss. 1395-1396 (relating to public health, welfare, Medicare and Medicaid issues)
- 3. Has been terminated for cause from the Florida Medicaid program pursuant to s. 409.913, F.S., unless the candidate or applicant has been in good standing with the Florida Medicaid program for the most recent 5 years
- 4. Has been terminated for cause, pursuant to the appeals procedures established by the state or from any other state Medicaid program, unless the candidate or applicant has been in good standing with a state Medicaid program for the most recent 5 years

With New Questions
- There will be a process of verification.
- Indications are the board will follow up with practitioners that fail to disclose convictions.

Stay Off the Radar
- Practice Good Customer Service
- Practice to Standard of Care
- Practice Sober
- Maintain Good Patient Records
  Not documented = Not Done
- Do your CE requirements

Standards of Practice
- 64B13-3 state statute has 13 Standards
  There must have been more at one time as the numbers go from 1 to 19.
#1 Confidentiality
- Maintain patient confidentiality and you are responsible for your staff

#2 Responsibility
1. A licensed practitioner shall have an established procedure appropriate for the provision of eye care to his/her patients in the event of an emergency outside of normal professional hours, and when the licensed practitioner is not personally available. Since the licensed practitioner’s continuing responsibility to the patient is of a personal professional nature, no licensed practitioner shall primarily rely upon a hospital emergency room as a means of discharging this responsibility.
2. A licensed practitioner shall give notice to the patient when he or she relocates his or her practice or withdraws his or her services so that the patient may make arrangements for his or her eye care. Notice to the patient shall specifically identify the new location of the licensed practitioner’s practice or the location at which the patient may obtain his or her patient record, and shall be in compliance with Rule 64B13-3.003, F.A.C.
3. Patient records shall clearly identify the optometrist who examined or treated the patient on each separate occasion.

#2 Responsibility to Patient
- A licensed practitioner shall give notice to the patient when he or she relocates his or her practice or withdraws his or her services so that the patient may make arrangements for his or her eye care. Notice to the patient shall specifically identify the new location of the licensed practitioner’s practice or the location at which the patient may obtain his or her patient record, and shall be in compliance with Rule 64B13-3.003, F.A.C.

#3 Patient Records
1. The licensed practitioner must legibly sign the entry in his or her records for each patient encounter. If the practitioner maintains electronic patient records, the practitioner may affix an electronic signature which can be generated by using either public key infrastructure or signature dynamics technology, and meets the following criteria:
   a. The electronic signature is unique to the person using it;
   b. The electronic signature is capable of verification;
   c. The electronic signature is under the sole control of the person using it;
   d. The electronic signature is linked to the record in such a manner that the electronic signature is invalidated if any data in the record are changed.

- A licensed practitioner shall maintain full and independent responsibility and control over all records relating to his or her patients and his or her optometric practice. All such records shall remain confidential except as otherwise provided by law and shall be maintained by the licensed practitioner in compliance with Rule 64B13-3.001, F.A.C. For the purposes of this rule, “maintain full and independent responsibility and control” means that the records shall be maintained in the licensed practitioner’s office or solely in the possession of the licensed practitioner, and that the licensed practitioner shall not share, delegate, or relinquish either possession of the records or his or her responsibility or control over those records with or to any entity which is not itself a licensed practitioner.

- The records relating to the patients of a multidisciplinary group of licensed health care professionals as provided in Section 463.014(1)(a), F.S., or relating to the patients of a partnership or professional association as provided in Section 463.014(1)(b), F.S., may be maintained by the group practice, partnership, or professional association on behalf of all licensed practitioners employed by the group practice, partnership, or professional association.

- For the purposes of this rule, “entity which itself is not a licensed practitioner” shall refer to any corporation, by body, organization, individual, or commercial or mercantile establishment which is not a licensed practitioner or which is not comprised solely of licensed health care professionals, the primary objective of whom is the diagnosis and treatment of the human body.
#3 Patient Records

(5) For the purposes of this rule, "commercial or mercantile establishment" shall include an establishment in which the practice of opticianry is conducted pursuant to Chapter 484, Part I, Florida Statutes, and an establishment in which optical goods are sold.

(6) A licensed practitioner shall keep patient records for a period of at least five years after the last entry. Upon the discontinuance of his or her practice, the licensed practitioner shall either transfer all patient records which are less than five years old to an eye care practitioner licensed pursuant to Chapter 463, 458, or 459, F.S., where they may be obtained by patients, or he or she shall keep them in his or her possession for at least five years and make them available to be obtained by patients.

#3 Records at Death

(7) A licensed practitioner who retires or otherwise discontinues his or her practice shall cause to be published in the newspaper of greatest general circulation in each county where the licensed practitioner practiced, a notice indicating to his or her patients that the licensed practitioner’s patient records are available from a specified eye care practitioner licensed pursuant to Chapter 458, 459, or 463, F.S., at a certain location. The notice shall be published once during each week for four (4) consecutive weeks. A copy of the published notice shall be delivered to the Board office for filing.

#3 Records at Death

(8)(a) The executor, administrator, personal representative, or survivor of a deceased licensed practitioner shall retain patient records concerning any patient of the deceased licensed practitioner for at least five years from the date of death of the licensed practitioner.

(b) Within one (1) month from the date of death of the licensed practitioner, the executor, administrator, personal representative, or survivor of the deceased licensed practitioner shall cause to be published in the newspaper of greatest general circulation in each county where the licensed practitioner practiced, a notice indicating to the patients of the deceased licensed practitioner the location at which their patient records may be obtained. The notice shall be published once during each week for four (4) consecutive weeks. A copy of the published notice shall be delivered to the Board office for filing.

#4 Minimum Equipment

The following shall constitute the minimum equipment which a licensed practitioner must possess in each office in which he or she engages in the practice of optometry:

(1) Ophthalmoscope;
(2) Tonometer;
(3) Retinoscope;
(4) Ophthalmometer, keratometer or corneal topographer;
(5) Biomicroscope;
(6) Phoropter or trial frame, trial lenses and prisms;
(7) Standard charts or other standard visual acuity test;
(8) Field testing equipment (other than that used for a confronted test).

#5 Entrance Sign

Whenever a licensed practitioner is actively engaged in the practice of optometry, or actively holding himself or herself out as a practitioner, he or she shall cause to be placed or kept in a conspicuous place at each entrance to each office a sign which lists each licensed practitioner’s name and words of proper abbreviation or intelligible lettering clearly denoting that the practitioner is engaged in the practice of optometry.
#6 Signage

64B13-3.006 Licenses and Signs in Office.

(1) Every licensed practitioner shall keep the Board office advised of each office from which he or she practices optometry. If a licensed practitioner or certified optometrist engages in the practice of optometry at more than one location, he or she shall obtain a branch office license. Every licensed practitioner or certified optometrist shall keep his or her current license or branch office license conspicuously displayed at the location where he or she is practicing at all times and shall, whenever required, exhibit the license to any authorized representative of the Department.

(2) A licensed practitioner who is not a certified optometrist shall display at every location at which he practices optometry a sign which states: “I am a Licensed Practitioner, not a Certified Optometrist, and I am not able to prescribe topical pharmaceutical agents.”

#7 Minimum Exam

64B13-3.007 Minimum Procedures for Vision Analysis.

(1) Vision analysis is defined as a comprehensive assessment of the patient’s visual status and shall include those procedures specified in subsection (2) below.

(2) An examination for vision analysis shall include the following minimum procedures, which shall be recorded on the patient’s case record:

(a) Patient’s history (personal and family medical history, personal and family ocular history, and chief complaint);
(b) Visual acuity (unaided and with present correction at initial presentation; thereafter, unaided or with present correction);
(c) External examination;
(d) Pupillary examination;
(e) Visual field testing (confrontation or other);
(f) Internal examination (direct or indirect ophthalmoscopy recording cup disc ratio, blood vessel status and any abnormalities);
(g) Biomicroscopy (binocular or monocular);
(h) Tonometry;
(i) Refraction (with recorded visual acuity);
(j) Extra ocular muscle balance assessment;
(k) Other tests and procedures that may be indicated by case history or objective signs and symptoms discovered during the eye examination;
(l) Diagnosis and treatment plan.

(3) If because of the patient’s age or physical limitations, one or more of the procedures specified herein or any part thereof, cannot be performed, or if the procedures or any part thereof are to be performed by reason of exemption from this rule, the reason or exemption shall be noted on the patient’s case record.

#8 Corporate.....

64B13-3.008 Corporate, Lay, and Unlicensed Practice of Optometry Prohibited.

(1) By its enactment of Chapter 463, Florida Statutes, the legislature has determined that the public health and welfare is best protected when only those individuals who have graduated from an accredited school or college of optometry approved by the Board, and who have been tested and licensed as meeting the minimum requirements for safe practice, are permitted to engage in the practice of optometry.
(2) No corporation, lay body, organization, or individual other than a licensed practitioner shall engage in the practice of optometry through the means of engaging the services, upon a salary, commission, or other means or inducement, of any person licensed to practice optometry in this state.

(3) No licensed practitioner shall engage in the practice of optometry with any corporation, organization, group or lay individual.

And so and so on.

In Summary:
You are the Doctor, responsible for records, employees and care of patients

Seek advice before you sign a contract.

“Free Eye Exam”

If the exam is no longer free when glasses not purchased… Patients will complain!

This complaint will have probable cause hearing

Think of a new marketing plan.

Standards of Practice.

(1) Section 463.016(1)(g), F.S., authorizes the Board to take disciplinary action against an optometrist who is found guilty of fraud, deceit, negligence, incompetence, or misconduct in the practice of optometry.

(2) An optometrist shall not use or perform any technique, function, or mode of treatment which the optometrist is not professionally competent to perform. Professional competence as used in this rule may be acquired by formal education, supervised training and experience, continuing education programs which have been approved by the Board, or an appropriate combination of such means.

(3) An optometrist shall provide that degree of care which is full and complete, consistent with the patient conditions presented, the professional competency of the optometrist, and the scope of practice of optometry. An optometrist shall advise or assist her or his patient in obtaining further care when, in the professional judgment of the optometrist, the service of another health care practitioner is required.

(4) Certified optometrists employing the topical ocular pharmaceuticals listed in subsection 64B13-18.002(9), F.A.C., Anti-Glaucoma Agents, shall comply with the following:

(a) Upon initial diagnosis of glaucoma of a type other than those specifically listed in Section 463.0135(2), F.S., the certified optometrist shall develop a plan of treatment and management. The plan will be predicated upon the severity of the existing optic nerve damage, the intraocular pressure, and stability of the clinical course.
#10 Standards of Practice

2. In the event the certified optometrist cannot otherwise comply with the requirements of subsections 64B13-3.010(1)-(3), F.A.C., a co-management plan shall be established with a physician skilled in the diseases of the human eye and licensed under Chapter 458 or 459, F.S.

(b) Because topical beta-blockers have potential systemic side effects a certified optometrist employing beta-blockers shall, in a manner consistent with Section 463.0115(1), F.S., ascertain the risk of systemic side effects, through either a case history that complies with paragraph 64B13-3.007(2)(b), F.A.C., or by communicating with the patient’s primary care physician, or by consulting with the patient’s primary care physician, or with a physician skilled in diseases of the eye and licensed under Chapter 458 or 459, F.S., when, in the professional judgment of the certified optometrist, it is medically appropriate to do so. This communication shall be noted in the patient’s permanent record. The methodology of communication is left to the professional discretion of the certified optometrist.

Standards of Practice

(7)(a) To be in compliance with paragraph 64B13-3.007(2)(v), F.A.C., certified optometrists shall perform a dilated fundus examination during the patient’s initial examination, and thereafter, whenever medically indicated. If, in the certified optometrist’s sound professional judgment, dilatation is not performed because of the patient’s age, physical limitations, or conditions, the reason(s) shall be noted in the patient’s medical record.

(b) Licensed optometrists who determine that a dilated fundus examination is medically indicated shall advise the patient that such examination is medically necessary and shall refer the patient to a qualified health care professional for such examination to be performed. The licensed optometrist shall document the advice and referral in the patient’s medical record.

64B13-3.012 Prescriptions

(1) All prescriptions written by a licensed practitioner shall contain the name, address, telephone number and signature of the licensed practitioner who wrote the prescription and the information shall be kept on file by the licensed practitioner for a period of at least two (2) years. If the licensed practitioner maintains electronic patient records, the practitioner may affix an electronic signature to the prescription only if the electronic signature is generated by using either public key infrastructure or signature dynamics technology, and meets the criteria of paragraphs (1)(a)-(c) of Rule 64B13-3.003, F.A.C.

(2) A spectacle prescription shall be considered valid for a period of five (5) years, and a licensed practitioner shall make available to the patient or his or her agent any spectacle prescription or duplicate copy determined for that patient.

Standards of Practice

(8) Certified optometrists serving as adjunct professors to schools or colleges of optometry pursuant to Section 463.005, F.S., may delegate to residents, externs or interns of said school, educational functions or duties beyond the restrictions of Section 463.009, F.S. Such delegated duties or functions shall be in accordance with Section 463.002(5), F.S. For purposes of this rule, residents, externs or interns of qualified schools or colleges of optometry are not defined as nonlicensed supportive personnel.

(9) Engaging or attempting to engage in the possession, sale, or distribution of controlled substances as set forth in Chapter 893, F.S., for any other than legitimate purposes, constitutes grounds for disciplinary action by the Board.

Specific Authority 463.005(1) F.S. Law Implemented 463.005(1), 463.0135 (1), 463.016(1) F.S. History–New 9-16-80, Amended 12-20-82, Formerly

#12 Prescriptions

(3) A prescription for daily wear soft contact lens shall be considered valid for a period of two (2) years and a licensed practitioner shall make available to the patient or his or her agent any daily wear contact lens prescription or duplicate copy determined for that patient. This subsection applies only to contact lenses determined by the Federal Drug Administration to be daily wear lenses.

(4) Spectacle and contact lens prescriptions shall include:

(a) Spectacle prescriptions:

1. Sphere power.
2. Cylinder power, if necessary.
3. Cylinder axis, if necessary.
4. Prism amount, if necessary.
5. Multifocal add power, if necessary.
6. Any other information necessary to accomplish the objective of the prescription.
#12 Prescriptions

(b) Contact lens prescriptions, including prescriptions for cosmetic, non-corrective lenses, as applicable:
1. Sphere power,
2. Cylinder power, if necessary,
3. Cylinder axis, if necessary,
4. Specific contact lens type/brand,
5. Base curve, if not included in type/brand,
6. Diameter, if not included in type/brand,
7. Follow-up care requirements, if any.

(5) Except as provided in Section 463.012, Florida Statutes, and subsection (3) of this rule, the extent of a contact lens prescription and when a contact lens prescription can safely and accurately be written shall be left to the professional judgment of the licensed practitioner.

Just Do It!

- Give patients their prescriptions.
- You can add:
  “Routine exam recommended for prescriptions older than one year.”

#19 Keep Address Current

- 64B13-3.019 Address of Record.
  - It shall be the duty of each licensee to provide to the Department of Health written notification by certified mail of the licensee’s current mailing address and place of practice within 10 days upon change thereof. The term “place of practice” means the address(es) of the physical location(s) where the licensee practices optometry.

On the Radar

- Specific Complaint
- Probable Cause
- Full Investigation
- Full hearing
For a Specific Complaint
First Board must decide

1. What will protect the public and compensate the patient?

2. What is needed to rehabilitate the practitioner?

Florida CE

- For Renewal of License Following Your First Biennium
  - All Optometrists are required to complete 30 hours of CE each biennium:
    - Two (2) hour course relating to prevention of medical errors
    - Two (2) hours in Florida laws and rules CE
    - 26 hours in general CE
  - All Certified Optometrists are required to complete 30 hours of CE each biennium:
    - Two (2) hour course relating to prevention of medical errors
    - Two (2) hours of Florida laws and rules CE
    - Six (6) hours in Transcript Quality CE
    - 20 hours in general CE
  - See Rule 54B13-5.001, F.A.C., Continuing Education for additional information about continuing education requirements.

Alphabet Soup of CE

- CE Broker
- ARBO
- COPE
- OE Tracker

CE Broker

- "CE Broker is the official continuing education system for the Florida Department of Health. As a licensed healthcare professional in Florida your subscription to CE Broker lets you quickly and easily view your progress toward meeting your continuing education requirements. At any time, you can view your personal transcript information that has been posted by both you and approved educational providers. The Official Course Search lets you search for approved continuing education courses to meet your needs. Now you can finally have peace of mind with one streamlined electronic CE portfolio."

CE Broker

- ThirtyFive dollars/Biennium to be able to view your CE on line.
- Enter with FL license number and then can set up user name and password.
- Counts up CE for the FL biennium

www.cebroker.com
CE Broker
- Even if you do not pay to see your CE it is recorded in CE Broker.
- It is also monitored by the Florida Department of Health.
- I believe OD’s lacking CE will get audited.
- This biennium forward if your CE is not done license renewal will not proceed.

COPE
- COPE is an approval agency for CE that is under ASCO.
- ASCO: Association of Schools and Colleges of Optometry
- Canada and most states accept COPE approved courses.
- NSU events: after we get COPE we submit for Florida Approval in addition

OE Tracker
- “OE TRACKER captures and stores continuing education attendance data for optometrists. The information is retained in the secure ARBO database and can be accessed online by you and your licensing board. OE TRACKER can save you time and reduce your paperwork by tracking all your CE credits electronically.”

OE Tracker
