

## Costas Katsoulos

Msc, FSLs, FBCLA,  
FEA00, FAAO

### FRIDAY FELLOW Q&A

**Q: Where are you located?**

A: Athens, Greece

**Q: What year did you earn your Fellowship?**

A: 2017

**Q: Where did you earn your doctorate?**

A: I graduated from an optometry school in Athens.

**Q: What inspired you to pursue optometry as a career?**

A: My own myopia, my love for photography, and optics in general. "Playing" with all kinds of lenses brought me lots of enjoyment.

**Q: What is your most rewarding patient or professional experience?**

A: Many. I can recall when I detected a rhabdo recurrence in a 10-year-old, from fundoscopy, or when I suspected an aneurysm (that proved to be true) in a 12-year-old with painful third palsy.

**Q: How did you become involved with the Academy?**

A: Because I wanted a stimulus for furthering my professional and self-development.

**Q: What has your involvement meant to your career?**

A: Achievement, recognition, and desire to improve even more.

**Q: What is the best part of being an OD?**

A: Using detective skills on ocular conditions to recognize the cause of patients' problems and help them efficiently.

**Q: Tell us a fun fact about you or an interesting hobby you have?**

A: Digital AND film photography (yeah, still!).

AMERICAN ACADEMY  
*of* OPTOMETRY
